

The right rooms change everything.

THE FOUNDER

Alvaro Daza

Founder · Relationship Architect · based in Abu Dhabi

Relationship architecture is interdisciplinary: strategy, design, fabrication and hosting held by one desk. Circolo defines the strategy, designs the environment, executes the build and keeps custody of what follows — architectural spaces, gatherings and objects, commissioned under one mandate and quoted per project.

THREE CRAFTS, ONE DISCIPLINE

Spaces

Architectural design and execution: pavilions, majlis, interiors, engineering, fabrication, install and strike.

Strategy → Design → Execution → Custody · commissioned under one mandate, quoted per project

Gatherings

Event design and execution: composition of the room, venue, production, protocol, service, film and record.

Objects

Product design and execution: commissioned objects, editions, gifting and the tooling behind them.

THE RECORD

THE STANDARD

*We do not publish who was in the room. That is the product.**Scarcity here is not a tactic. It is the arithmetic of a table.**Nothing is paid before you are accepted.*
